HOW TO ARRANGE EMERGENCY ASSISTANCE

1. Major emergencies which could result in serious injury to the public or damage to property should be immediately advised to the supply company and/or the public emergency services. The policy does not provide cover for any repairs, damage or other loss resulting from gas leaks. gas leak is the responsibility of the distributor for that area. If you smell gas or think that there is a gas leak in your home, you should contact the National Gas Emergency Service on 0800 111999. An approved contractor will not be able to attend your home until gas leaks have been made safe.

2. Before requesting assistance, check that the circumstances are covered by your policy. Remember this is not a maintenance policy and does not cover routine maintenance in your property. Normal day to day maintenance or any claim not deemed an emergency will not be covered under this policy, however we can provide assistance on a pay on use basis.
3. If your emergency is boiler related you should have your boiler make and model and service details ready when you contact the helpline. Remember you must produce evidence, to our approved engineer, that the boiler has been serviced to the manufacturer's specifications within the last twelve months in order for primary heating system cover to apply. Should you be unable to provide evidence that the boiler has been serviced you will be asked to pay the first £65.00 of the call out costs.
4. Telephone the helpline as soon as possible after the emergency occurs and provide details of the assistance required. All requests for emergency assistance must be made through the helpline. Do not make any arrangements yourself without prior authorisation from the helpline, if you do we will limit the amount we pay to our standard service costs All calls are recorded.
5. The helpline will appoint an approved engineer to attend your property, provided that this is not precluded by adverse weather conditions, industrial disputes (official or otherwise), failure of the public transport system, including the road and railway networks and repairs thereto and any other circumstances preventing access to the property or otherwise making the provision of emergency assistance impossible.
The helpline and the approved engineer will have reasonable discretion as to when and how work is undertaken this will be based on the details provided by you.
6. The approved engineer will charge all costs covered by the insurance directly to us. You will be asked to pay the cost of:
 - (a) The excess;
 - (b) Call out charges if there is no-one at the property when the engineer arrives;
 - (c) Work in excess of the claim limit;
 - (d) Fitting replacement parts or components of a superior specification to the original at your request.

If at the time of requesting assistance the helpline do not have a record of your policy on file, the helpline will require credit or debit card details to be provided prior to the attendance of an approved engineer.
